SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Dear Sir:

Applicant wishes to advise the Examiner that the Federal Circuit has now decided the Molins v. Textron, Inc. case. A copy of the opinion, dated February 16, 1995, is enclosed. The opinion affirms the invalidation of the Williamson patents for inequitable conduct by Molins' in-house counsel in failing to cite the Wagenseil reference (which is of record in this application).

A one-page form PTO-1449 citing a reference recently brought to applicant's attention is enclosed, together with a copy of the cited patent.

Pursuant to 37 C.F.R. § 1.97(e), Applicant's undersigned attorney certifies that none of the cited references were cited by a foreign patent office or, to his knowledge after making reasonable inquiry, was known to any person designated in 37 C.F.R. § 1.56(c), more than three months ago.

Applicant reminds the Examiner that applicant has copied claims from the Williamson patent and requested that an interference be declared. Rule of Practice 607(b) says, "When an applicant seeks an interference with a patent, examination of the application... shall be conducted with special dispatch within the Patent and Trademark Office." 37 C.F.R. § 1.607(b). Such cases have priority over all other, non-special cases.

This case has been pending without substantive action for nearly eight years.

Applicant again respectfully requests that the Examiner declare the interference, as promised, without further delay.

Applicant's attorney is available at any time to answer any questions by the Examiner concerning any subject.

Respectfully submitted,

JEROME H. LEMELSON
